STHLM Traveling Privacy Policy

This privacy policy discloses the privacy practices for STHLM Traveling. This privacy policy applies solely to information collected by this service.

Information Collection

STHLM Traveling only process and stores data that is relevant for the service. No data that can identify an individual person is sent or stored when using the service.

STHLM Traveling does not connect the sent information to a user, which means that the usage of the service is anonymously. Information is sent when interacting with the service e.g: User entered data for receiving suggestions of places. Origin and destination and other data relevant to be able to retrieve a journey plan. Location data when searching from current position or searching for nearby places.

Like many other services we collect information that your device send whenever you ask for information as Log Data. This Log Data may include information such as your device IP address, device type, app version, the time the information was requested. This Log Data is stored a limited time. This Log Data is used to understand the usage of the service and or block request that is misusing the service.

When sending an email through the app, the senders email is disclosed to us. This email address will never be sold, rented or shared with/to anyone.

Sharing

Limited information such as location, device model, version and usage might be shared with trusted partners. The shared information is not linked to any personal information that can identify an individual person.

Google Analytics is used to gather usage of the app. This is used to improve the service and understand how the app is used.

Google Places API is used for retrieving places upon search, it's usages is convered by http://www.google.com/policies/privacy/

Crashlytics is used for receiving and processing crash reports. Relevant data to understand and set the crash in a context is shared such as device logs, model, version.

STHLM Traveling partners with Widespace and Glimr for showing relevant ads. Information such as location and advertiser id is shared with these services to be able to show relevant messages.

Kundo is used as a support forum, users choose what to share on this forum, users are encouraged to not disclose any personal information on this forum since all data posted on this forum can be viewed publicly. STHLM Traveling reserves the right to edit or remove messages posted on this forum.

Opt-out

STHLM Traveling only partners with trusted advertising networks that respects the advertiser id. Users can choose to reset their advertiser id at any point through the Android settings. STHLM Traveling also offers ways to disable the advertiser networks completely within the app.

Updates

This Privacy Policy may change from time to time and all updates will be posted here.
